Flagstaff's first ever High School Hackathon!

Hosted at **BASIS Flagstaff**
Saturday, October 5th 2024, from 8AM – 6:30PM
FREE to register and attend

What is a Hackathon?

A hackathon is a collaborative event where teams "hack" solutions to real-world problems and compete for prizes. This is a great event for high school students that promotes teamwork, innovation, skill building, and a sense of accomplishment in completing fun and meaningful projects. Ponderosa Hacks is a student organized event. We want to host a hackathon in Flagstaff since there are limited computer programming events and clubs in our local area. We hope you will help to support us!

Donations and sponsorship funds will cover food, merch, prizes, and other essential event expenses to ensure a successful hackathon.

No donation is too small! We have several sponsorship packages available with different benefits, ranging from having your logo included on all hackathon materials, handing out promotional materials at the event, to having a representative speak at our opening ceremony. Get your brand in front of 60-100 emerging developers and be a part of encouraging coding + creativity into the future. The hackathon will be promoted on social media for all BASIS high schools, and you'll gain marketing exposure to 4000+ students and their families across Flagstaff, Sedona, Williams, and Phoenix high schools. Your brand will gain exposure beyond Arizona, too, as Ponderosa Hacks will be advertised nationally at both **hackathons.hackclub.com** and **devpost.com**.

Ponderosa Hacks is fiscally sponsored by Hack Club, a 501(c)(3) nonprofit (EIN 81-2908499), so your donation is <u>tax deductible.</u>

Visit our website (http://Ponderosa-Hacks.com) and use the "Donate/Sponsor" link to donate. Or, contact us at *info@ponderosa-hacks.com*.

Benefits for monetary or in-kind donations	Bronze $100+	Silver $500+	Gold $1000+	Partner $3000+

Named event partner. Speaker and/or presentation during event (at Opening, Closing, or Presentation at awards)				✓

Interested in Volunteering?

Are you a high-school student interested in helping to plan and organize this event? Please join our team!

Are you a recent graduate, college student, educator, or interested adult willing to volunteer/mentor hackathon attendees? Computer/tech background preferred but not required!

Please contact us to discuss.
